THE ARTS MEAN BUSINESS.

HELP US SHARE THE IMPACT THE ARTS
HAVE ON YOUR COMMUNITY.

SCAN THE QR CODE
TO TAKE PART IN THE
RESEARCH STUDY.

Economic impact studies like the Arts & Economic Prosperity 6 (AEP6) shape the conversation about the arts and their impact on our communities through the collection of data about event-related audience spending to demonstrate the kind of economic stimulus that this spending provides to the overall economy. In turn, this data illustrates how our local arts industries support jobs, generate government revenue, and serve as a cornerstone of tourism.

The survey takes three
minutes and
must be done onsite
during the event.

Through these measurements, the narratives about where we come from, the quality of life we strive for, and all that we have to offer take shape.

Will you help us write this story?
